RE Application No:09/813,476	Filing Date:03/22/2001
Inventor: FOLKMAR, Jan	Title: HINGED CLIP WITH SEPARABLE JAWS
Art Unit: 3677	Examiner:
DATE OF ALLOWANCE: 03/26/2003	

PETITION PURSUANT TO 37 CFR 1.137(a)

On or about August 14, 2003 Applicant filed a Petition requesting the revival of the captioned application, based on the allegation that the alleged abandonment of the application was **unavoidable**.

The abandonment was alleged to have arisen due to

- a. the failure of applicant to pay the final fee
- b. the failure of applicant to submit replacement drawings.

It may be noted that this was the second occasion on which this application had become allegedly abandoned; the first occasion resulting from the misplacement in the USPTO of a timely filed response.

In a decision over the hand of Mrs. Francis Hicks, it was acknowledged that the allegation of non-payment of the final fee was erroneous, and that the evidence supported the conclusion that new, substitute drawings had been timely received into the US postal system but had become lost.

As part of the Petition applicant included drawings to replace the substitute drawings. However, it was alleged in a Notice dated September 10, 2003 that such replacement drawings were not of acceptable quality.

Accordingly, on or about October 8, 2003 new replacement drawings delivered to and were received by the USPTO and signed for over the hand of M. Assaw. Telephone calls to the Office of Petitions have been made on numerous occasions since that time to enquire into the status of the application, and by letter dated August 13, 2004, with the last such enquiry dated March 10, 2005. Various reasons have been given for the lack of any response to such enquiries, including the file being stored off-premises, or out for microfilming, or no record of the enquiry. On

March 10, 2005 the undersigned was advised by Mrs. Hicks to re-file the Petition.

As part of this re-filed Petition there is enclosed the following:

Declaration of the Undersigned together with supporting evidence.
Power of Attorney
Drawings (2 sheets containing Figs 1-6)

In view of the checkered history of the prosecution of this application, early and favorable reconsideration of the Petition is respectfully requested. Further, in view of the fact that originals of the drawings have been lost through no fault of applicant, it is respectfully urged that applicant be given the benefit of the doubt in the event that the quality of the presently submitted drawings is marginal.

Applicant also submits herewith Drawing sheets 3 & 4 of better quality of those on file, and requests that these be substituted for the corresponding sheets on file.

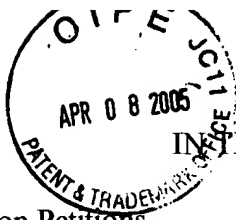

Respectfully submitted

A handwritten signature in black ink, appearing to read "Jan Folkmar", written over the typed name.

RE Application No:09/813,476	Filing Date:03/22/2001
Inventor: FOLKMAR, Jan	Title: HINGED CLIP WITH SEPARABLE JAWS
Art Unit: 3677	Examiner: BRITTAIN, J.R.
DATE OF ALLOWANCE: 03/26/2003	

SHOWING ACCOMPANYING PETITION OF JAN FOLKMAR

The Undersigned KENNETH M. GARRETT does DECLARE AS FOLLOWS:

On information and belief, on or about October 7, 2003, on my instructions there was forwarded to the USPTO by overnight Fedex courier service a package containing a paper, a true copy of which paper is annexed hereto and identified as Exhibit A, which paper was accompanied by drawings referred to therein.

On information and belief, said package was received in the USPTO on October 8, 2003; now shown to me as Exhibit B hereto is a true copy of the Waybill in respect of such package, from which copy a credit card number has been redacted, setting forth tracking information provided by Fedex, which was recorded at the relevant time, identifying the official receiving the package at the USPTO as M. Assaw, at a time of delivery of 11.48 on October 8, 2003.

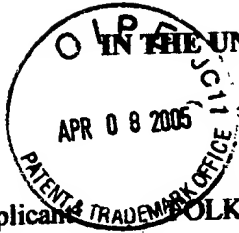

Now shown to me as Exhibit C hereto is a true copy of a letter sent by facsimile on August 13, 2004 together with a certificate of transmission, requesting information concerning the status of the application, referring to a telephone enquiry of on or about June 28, 2004. No response was received by me to my letter of enquiry. I am personally aware of having followed up this enquiry by telephone to different persons in the Office of Petitions on a plurality of occasions, and on information and belief, of other enquiries in respect of the application made by Mrs. Jan Folkmar without receiving any definitive response.

All statements made hereinabove of my own knowledge are true and all statements made on information and belief are believed to be true.

I make this declaration in the knowledge that willful false statements and the like are punishable by fine or imprisonment, or both (18 U.S.C. 1001) and may jeopardize the validity of the application or any patent issuing thereon.

Sir:

In response to the Office Letter dated Sep 15, 2003 the previously lacking item (1) the required reply, in the form of corrected drawings, Figures 1-6 are presented herewith.

REMARKS

The corrected drawings, Figures 1-6 are presented herewith in response to the Notice of Draftperson's Patent Drawing Review, in order to complete the previously submitted Petition.

Approval of these drawings by the Draftsperson is respectfully requested.

Reconsideration of the now-completed Petition is respectfully requested.

Respectfully submitted

EXHIBIT C TO THE
DECLARATION OF
KENNETH M. GARRETT
MADE THIS 4th DAY OF
APRIL, 2005

Sir

This is a follow-up to the telephone enquiry of about June 28 2004 to Mrs. Hicks in regard to the captioned application, wherein it was indicated by Mrs. Hicks that the file of the application would be drawn to determine the status of the application. Unfortunately the application appears to have been plagued by errors, with two Petitions having been necessitated due to the loss of timely filed responses to the USPTO and there has also been the misplacement of the final fee payment which although located is shown as having resulted in the abandonment of the application.

Replacement drawings were submitted by courier delivery on October 8, 2003 together with other papers that have been acted upon, but there has been no action in regard to this application. In view of the foregoing the issuance of the application has been greatly delayed, and it is earnestly requested that an early and favorable decision be made and that the patent be issued forthwith.
